

June 24, 2020

To Our Integral Senior Living Family of Associates ~

As we end of the month of June, many parts of the Country are beginning to open up and lessen restrictions with regards to types of businesses that may re-open and the requirement for wearing face coverings while outside your home.

We appreciate all the hard work and care that you have shown our residents and one another since the COVID-19 pandemic begin. It has been trying and frustrating at times, yet also so rewarding when you see the true difference that you make in so many lives each day. It is through each of you that our **“Be passionate about what you do every day”** Culture Keeper comes alive.

As restrictions lessen for us both inside and outside of our communities, we ask that you continue to keep the health and safety of our residents and fellow associate as a top priority. Below are some things that we would like you to consider doing or avoiding when away from work:

- Consider avoiding large gatherings of people
- Consider wearing a face covering when out of your home, even if not required by local regulations
- Consider social distancing when out in public whether it be at a restaurant, grocery store, family get-together or demonstration
- Consider washing your hands each time you return to your home from another location
- Consider frequently disinfecting commonly touched items such as your cell phone

We are not requiring that you take these actions, nor are we telling you how to enjoy your time away from the community. We are asking however that you consider the impact your actions away from the community may have on our residents and fellow associates when you return to your community. All of your dedication and personal responsibility up to this point has been tremendous! We ask that you consider maintaining that vigilance.

Our plan is to continue to ensure we are taking all the safety precautions needed to do all that we can to keep both you and our residents healthy and COVID-free. We are committed to keeping you updated on the latest information. Please visit www.ISL-updates.com for the latest information related to COVID-19 and our communities.

Warmly,

Collette Gray
